### **DETAILED ACTION**

Claims 132-134, 137-139, 168-173, 175-177, and 179-220 are pending in the instant application. Claims 1-131, 133-136, 140-167, 174, and 178 have been canceled.

#### ***Information Disclosure Statement***

The information disclosure statement (IDS), filed on 4/15/09 has been considered. Please refer to Applicant's copy of the 1449 submitted herewith.

#### ***RCE***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 4/15/2009 has been entered.

#### ***Response to RCE***

Applicant's response, amendment to the claims filed on 4/15/2009 are acknowledged. The rejections and objections made in the previous office action are withdrawn in view of the amendment to the claims and the following examiner's amendment. The 6' substituted luciferin derivatives have been examined. Therefore, the restriction requirement mailed on 3/22/2006 is withdrawn.

### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Michael Haukaas on 5/8/2009.

The application has been amended as follows:

Delete claims 132-134, and 168.

Delete kit claims 190-220 as nonelected subject matter.

### ***Reasons for Allowance***

The present invention is directed to luciferin derivatives substituted at the 6' position. The closest prior art of record is U.S. PAT 5,035,999 (Geiger et al), which teaches luciferin derivatives, but does not provide the requisite motivation to modify the 6' position of luciferin with a cytochrome P450 substrate, i.e. 2-chloroethy ether, 4-picolinyl ether, etc.... Therefore, instant claims 137-139, 169-173, 175-177 and 179-189, which all read on a 6' substituted luciferin derivative are allowable over the prior art.

### ***Telephone Inquiry***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susannah Chung whose telephone number is (571) 272-6098. The examiner can normally be reached on M-F, 8am-5pm.
